

COURSE DESCRIPTION

ACADEMIC CENTER SCHOOL OF MEDICAL SCIENCES	DEPARTMENT DEPARTMENT OF INTERNAL MEDICINE		
COURSE NAME HYPERTENSION AND METABOLIC DISEASES: BENCH TO BED	() CORE COURSE (X) OPTIONAL COURSE	HOURS 30	CREDITS 2
PROGRAM / PROJECT NAME PHYSIOPATHOLOGY AND SURGICAL SCIENCES Key Focus Area: Cardiovascular System	DISTRIBUTION OF HOURS		
	TYPE OF CLASS	HOURS	N. OF CREDITS
	THEORETICAL	15	1
	PRACTICAL	15	1
	TOTAL	30	2
PREREQUISITES	(X) Master's program course (X) Doctorate's program course		

COURSE DESCRIPTION

Epidemiology: prevalence, cardiovascular risk factors, pseudohypertension, white coat hypertension. Pathophysiology: sympathetic nervous system, renin-angiotensin-aldosterone system, endothelin, adipose tissue, oxidative stress, vascular changes, insulin resistance, salt sensitivity, secondary hypertension. Clinic: blood pressure measurement, initial assessment, isolated systolic hypertension, refractory hypertension, type 2 diabetes mellitus, dyslipidemia, obesity, metabolic syndrome. Complications: target organ lesions, left ventricular hypertrophy, coronary heart disease, heart failure, vascular remodeling, endothelial dysfunction, microcirculation, atherosclerosis, cerebrovascular disease, hypertensive nephrosclerosis, hypertensive retinopathy. Therapy: lifestyle changes, diet and exercise, diuretics, beta-blockers, central sympatholytics, vasodilators, calcium antagonists, converting enzyme inhibitors, angiotensin receptor blockers, new antihypertensive drugs, oral hypoglycemic agents, insulin, anti -oxidants, fibrates, statins.
